Contribution for the Tirana Communiqué

The Task Force on Enhancing Knowledge Sharing in the EHEA Community was created to find ways to achieve better communication regarding the EHEA and the Bologna process, between higher education students and staff, employers and society at large, authorities and policy making structures, in order to build a more closely connected and sustainable higher education community. The TF has surveyed the ways of achieving this implemented by certain countries and organisations, and has developed proposals for more effective knowledge sharing. Its work highlights both the need for new modalities and for ongoing efforts. It should continue.

THANK YOU!
