# Questionnaire on student and staff mobility

## A Preliminary remarks

In the Leuven/Louvain-la-Neuve Communiqué, the European Ministers responsible for higher education agreed that “mobility shall be the hallmark of the European Higher Education Area”. They called upon each country to increase mobility of students, , to ensure its high quality and to diversify its types and scope. At least 20% of those graduating in the European Higher Education Area should have had a study or training period abroad in 2020”. They also called for mobility of teachers, early-stage researchers and staff. At the same time, the Ministers underlined the importance of more balanced mobility across the European Higher Education Area. The findings of the Bologna Process Independent Assessment which were presented on the occasion of Bologna Ministerial Anniversary Conference in Budapest/Vienna on 11/12 March 2010 again underlined the need for action to enhance and better balance student and staff mobility.

This questionnaire on mobility is part of the general questionnaire used to collect information for the 2012 integrated implementation report. To give the BFUG Working Group on Mobility sufficient time and the necessary material to fulfil its terms of reference of drafting a European Higher Education Area Strategy for Mobility to be decided by the Ministers in 2012, the questions on mobility are being asked a few months earlier than the questions on the other themes. However, when the general questionnaire is sent out in early 2011, each country will have the opportunity to update its responses to the mobility questions should any significant changes have occurred.

When completing this questionnaire, please pay particular attention to the following two points:

- Information provided in this questionnaire should be supported by references whenever they are available. Please include the title and internet links, where available, for all publications and texts (national policy documents, national and/or international empirical surveys etc) which you have used to provide your responses to the specific questions.
- When providing a response for your country, please be aware that different stakeholders in the higher education system may have varying opinions or experience with regard to the issue at hand. Please make every effort to consult with stakeholders before finalising your answers to ensure that a balanced and consensual response is provided.

Please return this questionnaire to the Bologna Secretariat until 30 September, 2010 at the latest. If you have any queries on the questionnaire, please contact: [secretariat@ehea.info](mailto:secretariat@ehea.info).

## E Balanced student mobility flows

When looking at global and intra-European mobility flows, significant imbalances between continents, countries, regions and institutions become visible. In the Leuven/Louvain-la-Neuve Communiqué, the European Ministers therefore asked the BFUG to consider how balanced mobility could be achieved within the EHEA. With the 2009 Bologna Policy Forum Statement, Ministers from across the world declared that they “advocate a balanced exchange of teachers, researchers and students between [their] countries and promote fair and fruitful ‘brain circulation’”.

The following questions aim at collecting information on the understanding of the term “balanced mobility and on national strategies and measures to achieve more balanced mobility.

### E.1. Which of the following situations for student mobility applies to your country?

	Total mobility	Credit mobility	Degree mobility
more incoming than outgoing students			
more outgoing than incoming students			
approximately the same number of incoming and outgoing students		X	
No information available			X

**E.1.a** What is the statistical source for this information? Please supply statistical data.

For credit mobility we rely on the Erasmus data. For degree mobility we have an overview on the incoming students, but not on the outgoing students.

### E.2. Is the situation described above regarded as balanced mobility?

Yes

No

**E.2.a** Please explain and include a definition of “balanced mobility” as it is used in your country.

**We speak about balanced mobility if the number of incoming and outgoing students is approximately the same.**

**E.3. Does your country have significant imbalances of student mobility flows with particular countries or regions?**

Yes

No

**E.3.a** If yes, with which countries or regions are mobility flows most imbalanced?

**More incoming students from Eastern Europe than outgoing students to that region.**

**E.4. Does your mobility strategy/action plan for higher education address the issues of balance of student mobility flows?**

Yes

No

**E.4.a** If yes, what are the main concerns addressed?

**E.4.b** If yes, which measures have been undertaken to address these concerns regarding the balance of student mobility flows?
